This Mailing system and follow-up/auto-responder system will make your
life so much easier. No need to follow up individually with each of
your users you can set up an auto-responder to do the job.

• Sequential auto-responders systems: you can setup a series of email which will be sent at in interval that you can define.

• Newsletter scheduling: you can now schedule your newsletter to be
sent at a later date. Not only you won't have to sit next to your
computer to sent your computer but also this will enable you to
overcome your server emails limitations.

• First time wizard to help you send your first newsletter successfully.

• Copy function for lists and newsletters which can be used to manage newsletter template.

• Special front-end user-panel (so users can easily manage the newsletters they are subscribed to)

• Auto-configuration of mailing settings

• Front-end edition of newsletter for Administrators

• Sending mailing report to list owner

• Automatic update

• Personalize newsletter by greeting the reader with their firstname.

• Education center to help you write and design effective newsletters.
